QUICK START GUIDE

Product Overview

- 1 P1 Key (Programmable key)
- 2 PTT Key (transmit key)
- 3 P2&3 Keys (Programmable keys)
- 4 Antenna
- 5 Top Button (Programmable key)
- 6 Channel Knob
- 7 LED Indicator
- 8 Radio On-Off/ Volume Knob
- 9 Speaker
- 10 Microphone
- 11 Accessory Jack / Cover
- 12 LCD Display (RDR3600 only)
- 13 Function/Menu Keys (RDR3600 only)
- 14 Numeric Keypad (RDR3600 only)
- 15 Belt Clip
- 16 Battery
- 17 Battery Charger Contacts
- 18 Battery Latch

Setting Up Your Charger:

1. Plug the adapter's AC connector into the AC outlet socket. (see 1)
2. Plug the adapter's DC connector into the DC socket on the back of the charger. (see 2)
3. Place the radio with the battery attached, or the battery alone, in the charger. (see 3)
4. Make sure the battery contact is touching the charging terminals. The charging process begins when the red LED light illuminates.
5. The green LED light will illuminate approximately two hours later, indicating the battery is fully charged.

Attaching/Removing Belt Clip:

Using a small screwdriver, align the belt clip's screw holes to the radio's chassis. Attach by turning the screws clockwise into the belt clip's screw holes. Remove by doing the reverse.

Attaching audio accessory:

The accessory connector is located on the side of the radio. It is used to connect RCA audio accessories to the radio. Remove the accessory cover by unscrewing the screw location at the bottom of the cover. Connect the desired audio accessory firmly into the accessory jack and secure the screw by turning it clockwise.

Function Keypad (RDR3600 model)

Programmable Keys

[P1] key, [P2] key, [P2] key, and Top Button, can be set as function or menu shortcut keys by your RCA dealer. The function keypad is to help navigate the on-screen menu of RDR6300.

Basic Operations

Turning on/off radio

Rotate the Radio On-Off/Volume knob clockwise / counter-clockwise until a click is heard to turn on / off the radio.

Adjust the volume

After turning the radio on, rotate the Radio On-Off/Volume knob clockwise to increase the volume or counter-clockwise to decrease the volume.

Selecting a channel

Locate the channel number on the Channel Knob rotate it to select the desired channel. While rotating the knob, there is an automated channel number Voice prompt.

Mode Switch

Through Channel Selector knob. Each channel of the radio can be set as analog channel or digital channel by the dealer. The user can set them up through CPS software.

Call

Group Call

Talk group can be set by the dealer in advance and the operation methods are the same under DMO mode and TMO mode.

Transmitting a group call

1. Select the desired talk group through Channel Knob.
2. Hold down [PTT] key to transmit a group call.

Receiving and replying a group call

You can receive the group call without any key operation. If reply is needed, please hold down [PTT] key after the speech of the other side and then speak to microphone.

Care and Cleaning

To guarantee optimal performance as well as a long service life of your radio, please follow the tips below.

Radio Care

Keep the radio far away from substances that can corrode the electronic circuit.

Do not hold the radio by its antenna or headset cable directly to prevent damage to its normal use.

Attach the accessory jack cover when the radio is not in use.

Radio Cleaning

Clean up the dust and fine particles on the radio surface and charging piece with a clean and dry lint-free cloth or a brush regularly.

Use neutral cleanser and a non-woven fabric to clean the keys, control knobs and front case after long-time use. Do not use chemical preparations such as stain removers, alcohol, sprays or oil preparations, so as to avoid surface case damage. Make sure that the radio is completely dry before use.

NOTE: Turn off the radio and remove the battery before cleaning.

Battery indicator

Battery Usage Status	Audio Indication (RDR3500 model)	Display Indication (RDR3600 model)
Power ≥ 80%	3 Beeps	
Power ≥ 40%	2 Beeps	
Power ≤ 40%	1 Beep	
Power ≤ 10%	Low Battery Beep Warning	

Charger LED indicator

LED Indication	Charging Status
LED Glows Red	Charging

Radio LED indicator

LED Indication	Radio Status
Blinking Red	Radio is scanning, Radio is transmitting at low battery condition, receiving an emergency transmission or has failed the self-test upon powering up.
Solid Red	Radio is transmitting.
Blinking Green	Radio is powering up.
Solid Green	Radio is receiving or carrier is present/busy channel.
Rapidly Blinking Green	Radio is receiving a privacy-enabled call or data.
Note: When the LED is solid green, it indicates the radio detects activity over the air. Due to the nature of the digital protocol, this activity may or may not affect the radio's programmed channel.
